Data Engineer (f/m/x)

Festanstellung, Vollzeit · Berlin

ABOUT THE ROLE

We are looking for a full time Data Engineer (hybrid or remote) to be part of our lean data team, helping push forward our company mission to be data driven and spearhead the efforts to guarantee the quality of our data streams. We have big aims for the company, our sights are high, and so should be yours.

WHAT YOU WILL DO:

- Design maintain and implement complex data models
- Build, design and automate the data pipeline for data integrations and data driven services
- Own the entire data engineering and modelling process
- Ensure high data integrity
- Work closely with stakeholders across all key departments

WHAT YOU WILL NEED:

- Proficiency in at least one programming language (Python, java), Python preferred.
- Expertise in data engineering, data modelling and visualisation
- Hands on in at least one workflow management platform (Airflow etc)
- Experience with serverless and cloud environment (AWS preferred)
- Familiarity and good understanding in MPP Databases (Snowflake, Redshift, Google Big Query), Snowflake preferred.
- Familiarity and good understanding in relational database systems (Postgres, MySQL, Oracle, etc)
- Experience with BI tools (Looker, Tableau, Power BI, etc)
- Self starter attitude: Entrepreneurial drive paired with common sense and solid business understanding
- Strong English communication skills

WHAT WE OFFER:

- Great colleagues: A strong, lean and performance-driven team of A-Players
- Combine the benefits of a remote first company (+/- 3 hours CET time zone) with the option to work from our spacious office in the heart of Berlin
- Monthly team events and quarterly offsites to build relationships with team members no matter which hybrid/remote working mode you choose
- Individual financial support for your home office setup, personal development (e.g.workshops, books, conferences)

WE WANT TO KNOW MORE ABOUT YOU AND YOUR SKILLS

- Send us your CV and a short cover letter. Don't stress yourself on crafting the perfect 2-page cover letter. Send us a couple of paragraphs, briefly covering yourself, your past experience and your fit for the role.
- **Please submit your application until 7th of November 2021, to be part of our interview process.**

ABOUT US

Asana Rebel combines the best of yoga with high intensity training – in the process creating a whole new industry and revolutionizing how yoga is practiced. Our unique concept of Yoga Inspired Fitness is just the start. We think big. We think rebellious. We take pride in what we do. And we strongly believe we can achieve it all. Ours is an environment where nothing is impossible. Everyday our talented and dedicated team makes things happen, bringing in new ideas and pushing ourselves to think outside of the box. Asana Rebel creates a culture where we can learn, fail, grow and develop together whilst doing what we love.

We are an international and dedicated team, based in the heart of Berlin. Our app has been featured multiple times by Apple and Google and is rated as one of the top health & fitness apps. For our journey ahead, we are looking to further build up our team of bright minds and impressive personalities.

A great vision needs great people.
