

DevOps Engineer (m/f/d)

Belong. Believe. Be You. Belden

The traffic lights you pass every day. The stadium where you saw your last concert. Even out above the clouds on the international space station. Belden's impact is found all around the world, and beyond. There's a lot of history behind us, and so much more ahead. Help us write the next 100 years as a member of the Belden team.

Olen,
Belgium

Full-Time

Bachelor
or Master

You will make an impact in the following way:

- You extend, deploy, maintain and improve the build and release system of OTN Systems
- Manage individual project priorities, deadlines and deliverables
- Keep up to date with latest technologies and tools
- Introduce new technologies and platforms in the development activities of the R&D group

What you will bring:

Education – Bachelor or Master of Engineering or equivalent experience

Coding skills – Good knowledge of Python, Java, and Javascript in conjunction with experience in Linux server management and networking

Versatility – Knowledge of CI/CD tools like Git workflow, Jenkins, Artifactory, or Ansible, containerized environments like Docker, KVM, or Kubernetes, development tools like Gradle, Nuget, Scons, or Make, databases like MySQL, linux bash scripting and ubuntu distributions is preferred

Agility – Ability to multi-task and manage tasks with varying priorities in an agile development environment

Language skills – Working proficiency and communication skills in verbal and written English

These statements are intended to describe the general nature and level of work involved for this job. It is not an exhaustive list of all responsibilities, duties and skills required of this job. This company is an equal opportunity employer and makes employment decisions without regard to race, gender, disability, or protected veteran status.

Let's Write the Next 100 Years Together.

Join a global community striving to improve connectivity and security. The work we're doing puts our people on the front lines of impacting lives and shaping the future. Start your story of innovation by helping Belden write the next chapter in ours. Your future starts at Belden.
