

TRAINEE PATENT ENGINEER (m/f/d)

for our office in **Mannheim** with focus on IP harvesting and innovation
(permanent employment)

Do you enjoy bringing ideas into your work? Do you have a passion for innovation? You finished your studies (Bachelor or Master), ideally with first professional experience as an engineer in industry. Now, you are looking for an outstanding career perspective with a growing and promising future in the IP industry.

Then you could be just right with us.

As a specialist in the field of Patent engineering we provide Engineering Services for Intellectual Property. We help our clients to be innovative and make the most out of their ideas, to create sufficient patent portfolios in due time. The focus of our activities is the phase prior to a patent application. Above all, we prepare searches, refine invention disclosures and think about circumvention solutions for existing industrial property rights.

- Possibility to become a trained patent engineer
- Combination of professional studies and training-on-the-job within one / two-year trainee program to deliver a structured entrance in the world of IP
- Opportunity to be part of a rapidly growing team
- Actively contribute yourself and your creativity
- At least 26 days of vacation per year
- Competitive salary with additional pension insurance
- Permanent employment contract at start

OUR OFFER

YOUR TASKS

- Create, complete, and edit invention disclosures
- Perform patent searches of all kinds
- Participation in workshops for inventors, evaluation and prioritisation of results and transfer to one database
- Weekly and monthly reporting
- Formulate patent claims as a draft for the patent attorney
- Create simple technical sketches
- Objective and functional description of the invention
- Preparation and review of search strategies for carrying out patent searches

YOUR PROFILE

- Completed technical or scientific studies (preferably in mechanical engineering, physics, electronic engineering or equivalent)
- Ideally basic experience in Intellectual Property
- Fluent in English and intermediate German language skills (B2)
- Very good knowledge of MS Office products
- Basic knowledge of cloud based applications and virtual collaboration (MS Teams)
- Strong analytical skills
- Self-reliant work; as well as ability to work in a team
- Readiness to travel (approx. once a month for three days at the customer's premises)
- Professional and open interaction with customers and colleagues
- Willingness to grow and learn new skills or subjects
- Ability to take feedback as well as to feedback constructively
- Based in Germany with a valid work permit
